Dental school taught you how to become a dentist.
We'll teach you how to become a success.

There's no denying that restorative dentistry has been changing since the early 80's. There's also no denying that formal university education doesn't adequately prepare graduates to become proficient "contemporary restorative dentists". That's why dentists who want to enhance both their ability and profitability need hands on education to supplement this lack of expertise. At EP, our team of experienced dental professionals teaches dentists advanced programs in a state-of-the-art facility that offers the very latest in equipment and materials. We offer competitively-priced residency programs, mini-courses and 1-day courses with limited attendance so you can be sure you're getting the attention you deserve. For over ten years, we've helped dentists from all over the country and all over the world dramatically improve their practices. Call for a 2006-2007 course schedule, and see what we can do for your practice.

IT IS DENTAL TRADER POLICY to delete redundant free reader ads. We offer free ads to dentists & staff but they are not free for us. If everyone submitted the same free ad (or similar ads) multiple times, we would have to discontinue offering free reader ads altogether. Additionally, we have found redundant advertising actually hurts readership. For these reasons we automatically delete redundant free reader ads and ask dentists & staff to only place one free reader ad per item/need per month in the future or add upgrades (like bold text, a border or black background) to redundant ads and pay the small fee for them. Thank you, The Dental Trader.
