

The image features a horizontal banner with a dark brown background. A thick, yellow rope with a black outline is coiled into a rectangular shape, framing a central yellow oval. The text "XCEL SEMINARS" is written in a bold, black, sans-serif font across the center of the oval. The rope has a detailed braided texture and ends in frayed tips.

XCEL SEMINARS

24th Annual Comprehensive Dental Skills Series

Fulfill CA NEW
MANDATORY
Opioid
Requirement
W/SEP. 22
Webinar!

NOW as a LIVE WEBINAR Series w/LIVE CE Units

Sep. 22, 2024: Oral Pathology Review PLUS Responsibilities & Requirements of Prescribing Schedule II Opioid Drugs (now MANDATORY for ALL TX, IL & CA license renewals & can only be given by pre-approved CA CE providers) *Dr. Patrick Quaranta is a former professor of Oral Medicine at UMDNJ-New Jersey Dental School.*

Nov. 3: Managing Traumatic Injuries and The Imperceptible Restoration of the Anterior Fractured Tooth
Dr. Robert Marus lectures internationally, his smile makeover techniques have been published in numerous dental journals worldwide. Dentistry Today featured him as a top dental leader in lecturing for four consecutive years. Dr. Steven Mills is a Pediatric Specialist in private practice and noted lecturer. He has also published extensively in the fields of pediatrics, sports dentistry and traumatology.

Nov. 17: OSHA, Infection Control & the CA Dental Practice Act (including the NEW CA MANDATORY Ethics segment, which can only be given by pre-approved CE providers) *Leslie Canham, RDA, lectures nationwide using her unique humor and cutting edge information to present tough subject matter in an interesting way.*

(THAT IS LESS THAN THE COST OF FOUR COURSES)!!**

COURSE TOPICS

Oral Pathology & Prescribing Opioids: *This course gives dentists the tools to diagnose abnormal & pathological conditions within the mouth, objectives include:* Understanding what a lesion looks like, general diagnostic concepts & appropriate communication with other doctors ♦ Review common lesions including, candidiasis, frictional hyperkeratosis, lichen planus, auto-immune diseases manifested in the mouth, aphthous, ulcers, hemangiomas, hematomas & ecchymosis, HSV 1, HPV and other viral lesions, oral cancers & radiographic lesions *The course will also cover specifics of guidelines and laws regarding the prescribing of opioids (both medically complex and other patients) as well as the DEA scheduling of drugs. Objectives Include:* Understanding Practices for Pain Management in Dentistry & Procedures for Managing Vulnerable or Substance Use Disorder Patients ♦ Become Familiar with Regulatory Requirements for Prescribers and Dispensers-New guidelines and laws regarding the prescribing of opioids as well as the DEA scheduling of drugs

The Imperceptible Restoration of the Anterior Fractured Tooth: *Today's restorative dentists need to enhance their cosmetic skills in order to achieve growth and profitability in their practices. Dr. Marus's morning course will demonstrate a simplified method of restoring the fractured maxillary anterior central incisor with composite resin creating an undetectable restoration. Learn how to:* quickly treat the classic fractured anterior tooth with a simplified composite layering technique ♦ create facial anatomy and texture ♦ prevent grayness in the restoration *Dr. Mills will address dental trauma, reviewing this important and often overlooked area of dentistry. This unique course will go through numerous case studies and interactively discuss different treatment plans for the same case situations but patients of different ages. Cases topics will include:* techniques, treating trauma, sports medicine techniques, pulp therapy and more!

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control. The California Dental Practice Act segment will include: Basic requirements of the Dental Board (including, the new CA state mandated ethics content), how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline.

Esthetic Rehabilitation of the Worn Dentition & Adhesive Ceramic Restorations on both Teeth & Implants: *This presentation covers the importance of a differential diagnosis for the worn dentition, a step-by-step approach how to diagnose, treatment plan and sequence esthetic rehabilitation of patients with severe worn dentition. Objectives include:* Understanding smile design, bonded esthetic prototypes, ♦ Learning all ceramic system selection based on functional needs, adhesive system selection, and bonding sequence, with a focus on occlusal management in order to minimize porcelain fractures and complications *Bonded indirect restorations on teeth and implants have many applications in esthetic dentistry. This segment presents strategies for the best outcomes, including:* Discuss the application of analog & digital workflows, CAD-CAM, and adhesive technologies in esthetic dentistry ♦ Explain how to select and integrate restorative materials and adhesive protocols for indirect ceramic restorations

Medical Emergencies in the Dental Office: *This course will discuss how to react to life-threatening situations, provide practical equipment adjuncts, a few key drug recommendations, "red flags" and help understand vasoconstrictor interactions and local anesthetic maximum doses, including for kids. These skills are universally applicable to initially treating ANY and ALL emergencies and the speaker will discuss case reports, anecdotes, and situations encountered in over 40 years in dentistry. Objectives include:* Learn to triage, the differences between true emergencies, urgencies, annoyances, and non-events ♦ Comprehend the pharmacology of important drugs, including oxygen ♦ Assess case reports in the dental office and in day-to-day life
