

The image features a decorative banner with a rope border. The rope is yellow with a black outline and is arranged in a rectangular shape with rounded corners. In the center of the banner is a light yellow oval with a white outline. Inside this oval, the text "XCEL SEMINARS" is written in a bold, black, sans-serif font. The background of the entire banner is a solid brown color.

XCEL SEMINARS

25th Annual Comprehensive Dental Skills Series

NOW as a LIVE WEBINAR Series w/LIVE CE Units

March 23, 2025: Superb Direct & Indirect Restorations- Posterior Composites and Crown Cementation PLUS Bonus Segment on Case Acceptance *Dr. Robert Marus lectures internationally, his smile makeover techniques have been published in numerous dental journals worldwide & Dentistry Today featured him as a top dental leader in lecturing for four consecutive years. Dr. Shelli Boucher is an expert on dental patient interactions and team dynamics.*

April 27: OSHA, Infection Control & the CA Dental Practice Act (can only be given by CA pre-approved CE providers) *Leslie Canham, RDA, lectures nationwide using her unique humor and cutting-edge information to present tough subject matter in an interesting way.*

May 18: Treating Caries Chemically... WTF? (Without The Filling!) *Dr. Douglas Young Dr. Young is a renowned expert in minimally invasive dentistry and cariology, is Professor Emeritus at UoP, served on the ADA Council of Scientific Affairs and has co-authored several seminal ADA papers including Clinical Practice Guidelines on caries management.*

June 29: Redefining the Endodontic-Restorative Continuum (Including Deep Margin Elevation, Treating Resorption Cases, Cracked Teeth and Many More BRAND New Cases and Techniques)! *Dr. Robert Salehrabi is an assistant clinical professor at the University of Colorado Dental School and GPR program, author of articles in the Journal of Endodontics and other peer-reviewed journals & the International Endodontic Federation Research Award recipient.*

July 27: 3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery *Dr. Jay Reznick is a Diplomate of the American Board of Oral and Maxillofacial Surgery & was the first specialist in the U.S. to integrate CBCT and CAD/CAM in his practice. He has published extensively & taught dentists about basic and advanced implant dentistry, surgery, and 3D digital technology for the last two decades.*

**ALL LIVE WEBINARS ARE ON SUNDAYS, 8AM-3PM PACIFIC TIME
AND 7 LIVE CE UNITS - TUNE IN AND ENJOY OUR COURSES FROM ANYWHERE!**

\$149 FOR THE MARCH - JUNE LECTURES, \$299 FOR THE JULY CBCT COURSE OR THE ENTIRE 5 COURSE WEBINAR SERIES, 35 CA APPROVED LIVE CEs, FOR ONLY \$599 (THAT IS LESS THAN THE COST OF FOUR COURSES)!!

COURSE TOPICS

Superb Restorations-Posterior Composites and Crown Cementation: *This course will demonstrate how to place durable posterior composites predictably and aesthetically without post-operative sensitivity. Additionally, the preparation and cementation of Zirconia (Zirconia Dioxide) crowns and Lithium Disilicate crowns will be discussed. Zirconia can be used in restorations such as crowns, bridges, inlays, veneers as well as resin-retained bridges (Maryland bridge). Learn how to:* Place sensitivity-free posterior composites quickly, with sealed sub-gingival margins ♦ Bond vs. conventionally cement Zirconia restorations ♦ Use Zirconia vs. Lithium Disilicate **Bonus Segment on Case Acceptance:** Understand common communication & case presentation mistakes blocking case acceptance ♦ Learn an effective formula that makes treatment presentation simple and applicable to any type of person or treatment ♦ Learn how to navigate the most common scenarios of patient resistance ♦ Review examples of the formula applied to two patients that each accepted more than \$15,000+ of life changing treatment

OSHA, Infection Control and the CA Dental Practice Act: *This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, and Infection Control. The California Dental Practice Act segment will include:* Basic requirements of the Dental Board (including, the new CA state mandated ethics content), how to avoid Dental Board problems AND Present actual case studies of dentists subjected to Board discipline

Treating Caries Chemically... WTF? (without the filling): *This presentation aims to provide a comprehensive scientific overview of caries risk assessment, along with the utilization of chemical treatments for caries disease at the patient level and minimally invasive dentistry (MID) at the tooth level. New tools, such as the ADA Caries Classification System (ADA CCS), selective caries removal, and chemical approaches like silver diamine fluoride (SDF) and glass ionomer cement (GIC), will be explored in detail. Numerous practical clinical cases will be presented. Objectives include:* Perform a caries risk assessment and present science-based treatment options ♦ Classify caries lesions using the ADA CCS ♦ Use operative treatment only when necessary, using selective caries removal, GIC, and SDF to treat chemically at the tooth level

Redefining the Endodontic-Restorative Continuum: *This course explores the very latest in evidence-based endodontic diagnosis & treatment, covering cutting-edge restorative procedures that enable clinicians to save compromised teeth and ensure a positive long-term prognosis. This case-based lecture will discuss many techniques to biomimetically create tooth structure to perform a root canal & avoid extraction. Objectives include:* Understanding the deep margin elevation technique for deep carious lesions enabling you to save more teeth while eliminating the need for crown lengthening in many of these cases ♦ Learning Treatment of resorption cases ♦ Master vital pulp therapy ♦ Cover the restoration of most endo treated teeth without a post

3-D Radiographic Imaging in Dentistry Including CT-Guided Dental Implant Surgery (NOW Included in the Series): *Cone Beam technology has brought the power of 3D imaging into the dental office. This course will provide a comprehensive introduction to CT Scans, Cone Beam Volumetric Imaging & its dental applications, imaging systems in the US Market, and CT radiographic anatomy. CT-Guided dental implant planning and surgical techniques also provide a less invasive surgical procedure, awareness of anatomical challenges ahead of time, increased precision of implant placement, reduced surgical time, and enhanced patient recovery. Course Objectives include:* Be able to better interpret 3-D radiographic images of the oral and maxillofacial region. ♦ Know the applications for which CBCT is indicated. ♦ Be able to manipulate 3-D dental images on a PC computer. ♦ Understand how 3D technology is used to improve the accuracy and consistency of dental implant placement. ♦ Be able to discuss the work flow from diagnostic study models to surgery. ♦ Become familiar with 3D implant planning software. ♦ Understand why 3D CT-guided surgery is the future of implantology

TUITION	5 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$599, Staff: \$499	Lecture Dentist: \$149, Staff: \$129 \$299 for CBCT Scanning & CT Guided Implants
Less than 14 days before an event	Dentist: \$619, Staff: \$519	Lecture Dentist: \$169, Staff: \$149 \$319 for CBCT Scanning & CT Guided Implants

Courses are 8AM-3PM Pacific Standard time and each course is 7 Live CE Units.

Although Xcel Seminars does have sponsorship relationships with dental manufacturers and suppliers, we are dedicated to providing only evidence-based information in our courses. We are a California Board Approved provider, permit #4536, valid until 7/31/2025. This course meets the Dental Board of California's requirement for seven units of continuing education.

The logo consists of a thick, braided rope in a golden-yellow color with black outlines, forming a rectangular border with rounded corners. Inside this border is a light yellow, horizontally-oriented oval with a thin white outline. The text "CA. INST. of DENTAL EDUCATION" is centered within the oval in a bold, black, sans-serif font. The word "of" is smaller and in a lowercase script font, while "CA.", "INST.", "DENTAL", and "EDUCATION" are in all caps and a larger font size.

CA. INST. of DENTAL EDUCATION

Adult Oral Sedation Certification COURSE

“Adding oral sedation to my skill set transformed my practice.

This course changed everything, I am now treating phobic patients who have neglected their teeth for years and the new patient referrals keep coming.”

— John Magnis DDS, Oxnard, CA

- Expand your practice/patient base by offering oral sedation for adults
- Preserve fearful adult patients and related productivity
- Perform dental work in fewer appointments
- Perform longer treatment sessions comfortably
- Will teach you SAFE guidelines for oral sedation for adults
- LIVE patient demonstration
- **California Dental Board approved course**
- **Course meets ADA guidelines; qualifies for most States for Oral (minimal) sedation permit***

*Check with your individual state for requirements for issuing an oral (minimal) sedation permit

Periklis Proussaefs DDS, MS

is a prosthodontist and Associate Professor at Loma Linda University. Dr. Proussaefs has received formal training in all forms of sedation since 1997. He has been providing dental care under I.V. (moderate) or oral (minimal) sedation. His seminars focus on patient safety, airway management, monitoring,

and handling emergencies. The course involves lecturing, hands-on training on a manikin, and real patient experience.

“Dear Dr. Periklis Proussaefs, Thank you for the wonderful course. I was doing conscious sedation for many years and took several renewal courses. Yours was indubitably the best. Very informative. Extremely to the point. Clear and very captivating. I learned a lot this Sunday and started work on Monday refreshed, energetic, and eager to use all my new knowledge. I strongly recommend this course to doctors who are willing to introduce sedation to their practice or the ones who need renewal. Thank you.”

—Anna Durkin DDS, general dentist, San Marcos, CA

“A definite must take class for any dentist to further your career. You will learn a lot.” —Kevin Chou DDS, general dentist, Bakersfield.

Autologous blood concentrates (PRP, PRF, i-PRF).

LIVE PATIENT DEMONSTRATION and laboratory hands-on practice WORKSHOP

The Blood concentrates workshop involves:

- Lecturing on the biologic principles for implementing autologous blood concentrates
- Review current literature on PRP, APRF, I-PRF etc.
- Review of the advantages and limitations of using autologous blood concentrates
- Review of surgical solutions when using PRFS
- **LIVE PATIENT DEMONSTRATION**
- **LABORATORY HANDS-ON EXPERIENCE** drawing blood from a mannequin (and from each other-optional)

Periklis Proussaefs DDS, MS

Dr. Proussaefs is a prosthodontist and Associate Professor at Loma Linda University. He is the founder of the California Institute of Dental Education. He has published over 55 peerreviewed articles related to implant dentistry. Most of his award-winning publications involve bone grafting and alveolar ridge augmentation techniques. Dr Proussaefs has been editorial board

member in several scientific journals with high impact factor. He is one of the first published authors back in 2001 in topics related to utilizing autologous blood concentrates in conjunction with bone grafting procedures. His seminars have an evidence-based approach enriched with his 20+ years of experience in advanced implant dentistry
